

Be bright, save energy, save money

The **RERED** Project

If you are on the lookout for a cost effective source of funding to help you invest in energy efficiency improvements at your business, we are here to help you.

Under the RERED Project, you can obtain a long term loan of upto 10 years (including a grace period of upto 2 years) to cover the cost of your investment at favourable interest rates.

You could, for example, replace inefficient equipment, switch from fossil fuels to biomass, replace or supplement national utility electricity with self generation using renewable sources. Net metering and power factor correction also qualify for assistance.

Loans under the RERED Project credit scheme are available from seven lending institutions. Please contact your preferred financier on the following numbers to find out how your business can benefit from this opportunity:

Lending Institution	Contact Person	Telephone
Bank of Ceylon	Dhammika Muthukuda	011 244 7802
Commercial Bank of Ceylon	Sushara Vidyasagara	011 471 8248
DFCC Bank	Chandana Dharmawardana	011 244 2021
Hatton National Bank	Dilunika Jayasinghe	011 266 1739
LOLC	Amith Waduge	011 588 0875
NDB Bank	Sumith Peiris	011 234 7912
Sampath Bank	Thusitha Nakandala	011 473 0215

More information about the RERED Project can be obtained from the Administrative Unit of the RERED Project established within the Project Management Department of DFCC Bank. You can call Vidarsha Dharmasena on 011 244 2260 or Chinthika Pathiraja on 011 244 2449 or email us at proj.mgt@dfccb.com. Our website is www.energyservices.lk

Renewable Energy for Rural Economic Development (RERED) Project is an initiative of the Government of Sri Lanka assisted by the International Development Association (IDA) of the World Bank and Global Environmental Facility (GEF) aimed at promoting renewable energy development and demand side management.
